

CN-5

High pressure projection

The CN-5 pneumatic machine is simple, robust and easy to driving.

- Excellent ability to apply paint.
- For airless guns.
- Pump direction change system with pneumatic limit switches.
- Vertical pump.
- Protective casings for added security.
- Paint filters at the inlet and outlet of the machine.
- Easy transport.
- You only need compressed air.
- Own design and manufacturing.

Model	CN-5
Work pressure	200 bar
Electrical power supply	NO
Weight	38 Kg
Dimensions (width x depth x height)	710 x 840 x 1020 mm
Transformer power	NO

Characteristics

<p>Pressure gauges at the paint outlet.</p> <p>The reversing system of the pump is initiated by pneumatic switches to prevent piston slams and to have a long service life.</p> <p>All components are easily replaceable and are in stock.</p>	<p>The machine works with a vertical piston pump with ball check valves.</p> <p>The design with safety protections prevents accidents and allows easy maintenance.</p>
